Pennsylvania Association of Credit Management

ATTN: Harold /MaryAnn:

Just a note to thank you for the information we received in regards to one of our potential customers filing bankruptcy via Ansonia. Due to that phone call, one (1) day after the bankruptcy filing we were able to avoid a huge potential credit issue by stopping production which was to begin the following day.

From that day forward we have been using Ansonia Construction reports to our benefit.

Thanks again

Rich
